

ICOM

COMMUNICATIONS RECEIVER

IC-R3

Rugged
MIL-STD 810

Icom Inc.

2-inch TFT color LCD built-in! See your information on screen!

Basic performance

Impressive operating status display

Never before has a hand held receiver given you as much information as the IC-R3. Receiving frequency, tuning step, memory channel number, and more are visible on the 2-inch* TFT color display at a glance. In addition, the back ground color is selectable from 8 available colors.

*measured diagonally

TV picture receive capability

Not only can you see your operation status, you can display broadcast visual information. NTSC M, PAL B/G or other television systems are supported*¹, depending on version. You can watch TV program at anytime, anywhere. An FM-TV picture*² from wireless camera*² can also be displayed. Great for sporting events, security, or amateur TV without unpleasant wiring. Also, the IC-R3 offers an A/V output so you can transfer images to a TV monitor or a recording device.

*some versions do not support any of these systems

**supplied from third party

Signal strength level indicator

In addition to the current style of signal strength meters, a signal strength level indicator is adopted. Measures signal strength levels every 0.3 sec. and shows for up to 3 sec., the signal conditions within the period. In addition, when a directional antenna is used, this function helps in searching for signal origin, such as fox-hunting, etc.

Simple bandscope

Want to analyze signal activity within a band? Spectral activity can be seen on the TFT color display. The simple band scope becomes a useful tool for finding new or interfering signals. With the 5 selectable bandwidths, adjustable to 500 kHz wide will give a quick snapshot of activity.

Super wide frequency coverage — 0.495–2450 MHz!

Covers from 0.495 to 2450.095 MHz of super wide frequency range*¹ with AM, FM, wide-FM and TV picture*² receive capability as standard.

*¹some frequency ranges are inhibited with some versions

*²depending on picture modulation system and version

Long hours monitoring capability

A Lithium Ion battery, BP-206, comes as standard*, for more than 2 times longer operation than other types of batteries, during full feature operation. And the adopted external DC IN terminal allows you to operate with supplied AC adapter, BC-153A/D* (or 3.6–6.3 V DC power source), or 12 V DC power source via the optional cigarette lighter cable, CP-18A/E, all day long. In addition, the installed BP-206 can be charged simultaneously, while 5.5–6.3 V DC (more than 1 A) is supplied.

*not supplied for some versions

— Back ground color variations —

Wireless monitor usage example

• Hobby use example

Install a wireless camera just about anywhere— like looking down from an airplane, balloon, etc. Watch aib pictures as they hap-

pen.

• Security use example

Use the IC-R3 to monitor areas where security is an issue, indoors or out.

• Example of other usage

Use the IC-R3 as a visual baby monitor. Keep an eye on sleeping children while you're in another room or out in the garden.

Extra performance

Excellent memories

450 channels* of ample memory are available and stores operating frequency and mode, as well as tuning step, etc. Up to 6-character memory names can be assigned for each memory channel and shows on the color LCD, allowing quick and easy channel selection. The memory channels are divided into 9 banks, 8 banks of 50 (for individual frequencies) and 1 bank of 50 (for frequency ranges) for simple memory management.

*includes 50 program scan edges

Multi function 'joy-stick' switch

A 4-way action 'joy stick' switch gives you quick and easy access to many settings, including operating band, AF volume, color LCD settings, and more.

Automatic squelch

The IC-R3 keeps most RF background noise in check by automatically adjusting the squelch. It's very handy when receiving a weak signal— no more continually adjusting the squelch control by hand to block white noise. Also, the squelch level is manually selectable from open, and level 1 to 9.

Tone squelch features

A tone squelch system is built-in to provide quiet stand-by. The tone squelch includes the following functions

Pocket beep function:

Lets you know when a specified station's signal is received with an alerting beep.

Tone scan function:

Searching which tone is used for the receiving signal, such as for a repeater, private communications, etc.

Built-in attenuator

A built-in 4-step RF attenuator protects a signal from extremely strong interference from near-by signals, etc.

Other features

- One-touch, semi-duplex frequency monitoring capability
- Auto power OFF timer, power save function
- Use the monochrome LCD to operate the radio when the color LCD is turned off. The monochrome LCD offers battery voltage and other operating conditions
- Backlit monochrome LCD with auto OFF timer
- Remaining battery power indication
- Telescoping antenna is supplied, and more...

COMMUNICATIONS RECEIVER

IC-R3

SPECIFICATIONS

GENERAL

- Frequency range : 0.495–2450.095 MHz*
*816–901.995 MHz range is inhibited for the U.S.A. version.
- Mode : FM, AM, WFM, AM-TV*, FM-TV**
**One of either NTSC M, PAL B or PAL G systems.
**For 900–1300 MHz, 2250–2450 MHz ranges only; not available in some versions.
- Frequency resolution : 5 kHz, 6.25 kHz
- Number of memory channel : 450 (50 channel × 8 banks plus 50 scan edges)
- Antenna connector : BNC (50 Ω)
- Operating temperature range : –10°C to +60°C ; +14°F to +140°F
- Frequency stability : ±6 ppm max. (–10°C to +50°C)
- Power supply requirement : 3.6–6.3 V DC (negative ground)
- Current drain (at 4.5 V DC) : At rated output 210 mA typical (backlight OFF)
At stand-by 140 mA typical
Power save 53 mA typical
TV reception 730 mA typical (color LCD ON)
- Dimensions : 61(W)×120(H)×32.9(D) mm;
(projections not included) 2¹³/₃₂(W)×4²³/₃₂(H)×1⁹/₃₂(D) in
- Weight : 300 g; 10.6 oz

RECEIVER

- Receiver system : Triple-conversion* superheterodyne
*below 1150 MHz; Quadruple-conversion for above 1150 MHz
- Intermediate frequencies (Unit MHz):

	AM, FM	WFM	C3F(TV)	
			U.S.A.	Europe
1st	240.1	240.1	241.85**1	238.35**2
2nd	26.05	13.25	45.75	38.90
3rd	0.450	0.450	—	

*30–799.995, 1321–2099.995 MHz range
**800–1320.995, 2100–2450.095 MHz range

- Sensitivity (typical) :
 - AM (at 10 dB S/N)
 - 0.495–4.995 MHz 1.4 μV
 - 5.0–29.995 MHz 1.0 μV
 - 118–136 MHz 0.79 μV
 - 222–329.995 MHz 1.0 μV
 - FM (at 12 dB SINAD)
 - 1.625–4.995 MHz 0.32 μV
 - 5.0–469.995 MHz 0.25 μV
 - 470–799.995 MHz 0.45 μV
 - 800–1999.995 MHz 0.56 μV
 - 2000–2299.995 MHz 1.0 μV
 - 2300–2450.095 MHz 1.8 μV
 - WFM (at 12 dB SINAD)
 - 76–107.995 MHz 1.0 μV
 - 175–221.995 MHz 1.0 μV
 - 470–769.995 MHz 1.8 μV
- Selectivity : FM, AM More than 12 kHz/–6 dB
Less than 30 kHz/–50 dB
WFM More than 150 kHz/–6 dB
- Audio output power (at 4.5 V DC): 100 mW typical at 10% distortion with an 8 Ω load
- External SP connector : 3-conductor 3.5 (d) mm (1/8")/8 Ω
- Video/Audio OUT connector : 3-conductor 3.5 (d) mm (1/8")/8 Ω

The IC-R3 has been tested to and passed the MIL-STD requirements and strict environmental standards for shock (MIL C, D, E) and vibration (MIL C, D, E).

Supplied accessories:

- Antenna
- Belt clip
- Li-Ion battery cell assembly*
- Battery spacer
- Wall charger*

*depending on version
The LCD display may have cosmetic imperfections that appear as small or dark spots. This is not a malfunction or defect, but a normal characteristic of LCD displays.

All stated specifications are subject to change without notice or obligations.

OPTIONS

- **BP-206** Li-Ion BATTERY CELL ASSEMBLY
3.7 V/1650 mAh Lithium Ion battery pack.
- **BC-135** DESKTOP CHARGER
For rapid charging of battery pack, BP-206. An AC adapter, BC-123 or BM-104, is supplied with the charger. Charging time: approx. 2.5 hours
- **BC-153A/D** WALL CHARGER
6 V DC, 1000 mA output AC adapter. Allows for simultaneous battery charging the BP-206, while operating the receiver. Charging time: approx. 10 to 15 hours.
- **LC-151** CARRYING CASE
Helps protect the receiver from scratches, etc.
- **CP-18A/E** CIGARETTE LIGHTER CABLE
Allows you to operate the receiver through 12 V cigarette lighter socket, and also charges installed battery pack. A DC-DC converter is built-in.
- **SP-13** EARPHONE
Provides clear audio in noisy environment.

- **CS-R3 CLONING SOFTWARE + OPC-478 CLONING CABLE**
Allows quick and simple setting of receiving frequencies, memory names, etc, from a PC (Microsoft® Windows® 95/98).
- **OPC-474 CLONING CABLE**
Used for data cloning between receivers.
